

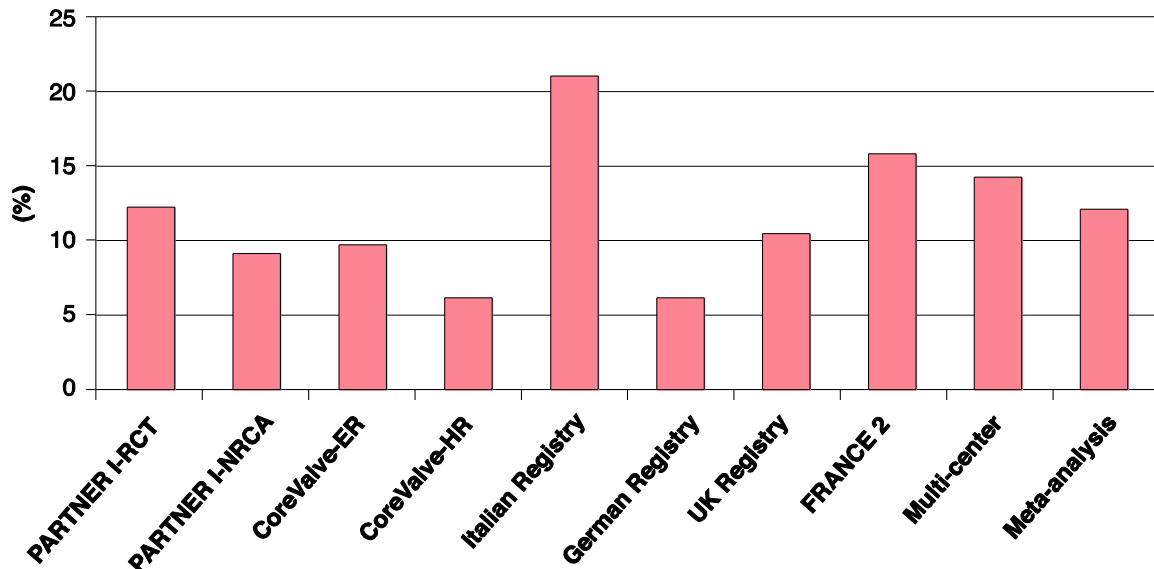

**FIGURE 1: Incidence of Moderate/Severe Paravalvular Regurgitation**

**Caption:** This figure shows the incidence of moderate or greater paravalvular regurgitation (PVR) in several major trials, registries, and multicenter studies: PARTNER I-RCT: randomized TAVR arm of the PARTNER I-A (high risk) (n=348) (1); PARTNER I-NRCA: randomized and non-randomized continued access TAVR cohorts of the PARTNER I-A trial (n=2434) (2); CoreValve-ER: CoreValve Extreme Risk Pivotal Trial (n=489) (3); CoreValve-HR: CoreValve High Risk Pivotal Trial TAVR arm (n=394)(4); Italian Registry (n=663) (5); German Registry (n=3875) (6); United Kingdom Registry (n=2440) (7); Multicenter registry (n=1735) (8); Meta-analysis (n=12,926) (9).
